Cubicle Curtains for Healthcare

Hookless® Shower Curtains for
Healthcare from on the right track
systems, inc

On the Right Track uses a unique technology that provides a great benefit to your facility, your patients and your staff.

- Our curtains can be installed in less than one minute without the use of a ladder.....and we can use your existing track
- We offer the only privacy curtain that provides a real ROI (return on investment)
- We provide increased patient satisfaction through our patented silent glide rails
- We contribute to quicker room turnaround which decreases patient waiting times

Let's talk fabric options!:

1. You can buy from our in-stock selection which insures **quick delivery!** Selections shown on following pages.
2. Our Flex-on rings and mesh can be attached to **ANY FABRIC you choose.** Additional options include antimicrobial treatment and recycled material.

Track Accessories

On the Right Track Systems offers additional accessories to choose from which will offer further advantages to you and your facility. Accessories include:

1. Grabber
2. Extensions
3. Rail Adaptation

Grabber

The "Grabber" is a patented device which enables you to install and/or remove our cubicle curtains while safely standing with both feet firmly on the floor. You therefore:

- Reduce the risk associated with falls
- Remove curtains using only one person
- Create greater efficiencies
- Eliminate dangerous ladders
- Lower worker's compensation costs and cost associated with lost days.

Descriptions

- 100 % aluminum
- Can hold up to 3 panels (18 ft.) at one time
- Folds up easily to be stored
- Recommend 1 grabber per floor

Extensions

Tired of having to sort through curtain lengths?? Eliminate altering lengths by choosing extensions:

- Allows for cubicle curtains to all be one length, regardless of the ceiling height.
- Can adjust the length of the extensions to any length within 2 feet.
- Save time on sorting through curtains after washes

descriptions:

- 100 % aluminum
- Comes in 2ft. lengths. Can be shortened to your facilities desired length.
- Installs into both hard and drop ceilings and existing track.

Rail Adaptation

You don't have our track??? Do not fret, we can leverage your existing track!

- Our silent glide rails mount directly into the traditional track.
- A simple solution that will save your facility time and money.

- Our track system can be installed directly into your existing rail.
